

SHIVAM VERMA

sv739901@gmail.com — +91-7054323383 — GitHub — Portfolio — LinkedIn — LeetCode

SUMMARY

B.Tech Information Technology student with an 8.02 CGPA and hands-on experience developing full-stack web applications using HTML,CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, PostgreSQL and MySQL. Experienced in building REST APIs, database-driven applications, authentication systems, AI-powered features and responsive user interfaces. Strong problem-solving skills with 150+ LeetCode and 800+ CodeChef problems. Seeking an entry-level Software Engineer / SDE opportunity.

EDUCATION

ABES Engineering College, Ghaziabad	Expected 2027
<i>Bachelor of Technology in Information Technology</i>	CGPA: 8.02
PTR PANDAY SIC	2022
<i>Senior Secondary (12th)</i>	66%
DEV SANSKRITI GIC	2020
<i>Secondary (10th)</i>	79%

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL, MySQL

Tools: Prisma ORM, Git, GitHub, VS Code, Vercel, Neon

AI Technologies: Gemini AI, OCR, AI-powered application development

PROJECTS

SpendWise – AI-Powered Personal Finance Platform *React.js, Node.js, Express.js, MongoDB, Gemini AI, OCR*

- Developed a full-stack personal finance application for expense tracking, budget management, transaction categorization and spending analysis.
- Integrated Gemini AI to provide personalized financial briefings, saving recommendations, spending-risk insights and actionable financial plans.
- Implemented OCR-based receipt processing to extract transaction information from uploaded receipt images and automate expense entry.
- Built responsive dashboards with spending trends, category-wise analysis, budget tracking, authentication and CSV expense export functionality.

SLAP – Real-time Workplace Communication Platform *React, Node.js, Express, MongoDB, Stream Chat, Clerk, Tailwind CSS*

- Architected Deployed a full-stack real-time collaboration application featuring live chat messaging, custom channel creation, direct messaging, and secure multi-tenant authentication
- Integrated Stream Chat API Webhooks to deliver sub-second messaging latency, unread badges, rich text formatting, and dynamic reaction capabilities across channels.
- Implemented Role-Based Access Control (RBAC) using Clerk for seamless user onboarding, OAuth session management, and encrypted identity persistenc
- Deployed full-stack application hosting Node.js backend on Render and Vite frontend on Vercel with secure CORS and environment setups.

AI Chatbot for Mental Health Support *React.js, Node.js,MongoDB, OpenAI API*

- Developed an AI-powered conversational chatbot using React.js and Node.js for real-time interactive conversation support.
- Designed scalable REST APIs MongoDB schemas using Express.js to securely persist chat history, session data, and user preferences.
- Built a responsive web interface focused on usability, accessibility and smooth user interaction.

ACHIEVEMENTS

- Solved 150+ coding problems on LeetCode covering Data Structures and Algorithms.
- Solved 800+ programming problems on CodeChef, strengthening competitive programming and problem-solving skills.

CERTIFICATIONS

- Frontend / Full Stack Development – SkillUp
- Data Analysis – Microsoft and LinkedIn
- Problem Solving (Intermediate) – HackerRank
- CodeChef Certificate
